

**type of  
drinking**

**type of  
establishment**

**type of  
event**

**Sporting  
events  
(Football, top  
golf etc)**

**Expensive  
taste vs  
cheap  
taste**

**a drink is  
bought  
for group  
of people**

**restaurants =  
food + drinks**

**Going to a  
party with a  
group where  
some do not  
drink**

**Cost of  
admission**

**buying a  
round of  
shots**

**drink bought  
for individual  
person**

**bars =  
mostly  
alcoholic  
drinks**

**business  
meeting/party**

**Splitting  
pitchers**

**Buying a high  
end bottle of  
wine to split**

**inexperienced  
drinkers  
ordering what  
they can't  
handle**

**Movies =  
Some serve  
very  
expensive  
alcohol**

**game  
night**

**Splitting a  
case for  
tailgating**

**Alcohol food  
pairings e.g.  
wine and  
cheese**

**Ryan Capron,  
Kim Dinh,  
Collin Remer,  
Abdullah  
Bueno**

**Problems  
you may  
run into**

someone  
might not  
have brought  
enough  
money

**Possible  
Solutions  
to these  
issues**

Too  
intoxicated to  
remember  
drink list

**First time  
drinking**

Pay first, only  
order within  
payment  
budget

some people  
are less/more  
willing to  
pay/contribute  
to bill

how many  
people are you  
splitting with?  
easier to split  
with less  
people

Have a drink  
tracker on the  
app that you  
update after  
every 1 or 2  
drinks

People may lie  
if someone is  
too drunk to  
remember  
about how  
much they got

**splitting  
tip**
